Google Professional Certificates: UX Design | Project Management | Digital Marketing & E-commerce

Portfolio in Spanish. English version coming soon.

Professional Summary

Google-certified digital strategist, interaction designer, and project manager with over 15 years of experience transforming complex data into clear, intuitive business solutions. Specialized in systemic design thinking, conversion funnel optimization, and enterprise SEO. Dedicated to leading end-to-end discovery processes and translating abstract technical services into compelling value propositions that align business objectives with real user needs.

Core Competencies

- **B2B Value Proposition Clarification:** Translating complex solutions into intuitive and engaging user flows, making it easier for decision-makers.
- **SEO Strategy & Information Architecture:** Structuring web content and optimizing search engine visibility to actively capture high-intent enterprise demand.
- **Conversion Funnel Alignment:** Designing and optimizing landing pages for lead generation, seamlessly connecting digital advertising with frictionless user experiences.
- **Agile Design & Cross-Functional Coordination:** Leading projects under Agile frameworks while integrating external specialists (photography, paid media, video) to deliver comprehensive digital solutions.

Key Achievements

- **Product Strategy & Growth (SciencePool):** Led the comprehensive website redesign and information architecture for advanced pool systems, driving a 30% increase in annual sales and acquiring high-end clients. Achieved this through deep user research, competitive analysis, and an SEO strategy coordinated with Google Ads campaigns.
- **Large-Scale User Research & Community Management:** Conducted exploratory research for the Tonalkin and Teoyaotl Guerrero Divino communities (34,000+ total users), translating detected behaviors into technical requirements that increased organic retention.
- **Validation & Usability:** Executed competitive audits and usability testing, ensuring digital products eliminated critical user friction while achieving core business goals.

Professional Experience

UX Consultant | Product Strategist | Independent Consultant
2023 — Present

- **Research & Planning:** Design and execute generative research using user interviews and metrics analysis to identify user goals, pain points, and core tasks.
- **Strategic Deliverables:** Produce comprehensive research reports, user personas, task analyses, and user journey maps to align cross-functional development teams.
- **Product Strategy:** Contribute to product roadmaps by analyzing business goals and user realities, ensuring an optimal balance between technical vision and user needs.

Senior Visual Systems & Information Design | Grupo SM México

2008 — 2022

Visual Systems Management: Directed and contributed to the visual production of large-scale print and digital educational materials.

Key Responsibilities:

- Translated complex educational data into clear, engaging visual assets for students.
- Structured and organized high-volume educational content to enhance pedagogical clarity.
- Partnered directly with editors and art directors to resolve complex visual and structural challenges.
- Maintained design consistency and quality across multiple concurrent large-scale editorial projects.

Skills & Tools

- **UX Research:** Qualitative research methodologies, usability testing, user interviews, competitive audits, UX metrics analysis.
- **Design & Prototyping:** Figma, Adobe XD, design systems, information architecture, inclusive design (WCAG AAA).
- **Management & Strategy:** Agile frameworks (Scrum/Kanban), SMART goals, stakeholder management, research repositories.
- **Languages:** Spanish (Native), English (Intermediate / Professional working proficiency).
